

AMANDA MIRACULOUSLY SURVIVES TRAGIC PLANE CRASH

Retrieving the plane from the dam...Hear Amanda's story
Only 2 out of 7 people survived

AMANDA BEST

In January 2006 a sky-diving adventure went horribly wrong when the plane crashed into a dam soon after take-off.

Amanda's story of her survival of this plane crash is truly miraculous. On January 2nd 2006, Amanda and a few friends set off from the Willowbank aerodrome near Ipswich for this their 'first adventure at sky-diving'. Unfortunately, it seems, the plane was having difficulty gaining height – then that tragic moment - when the plane suddenly lost altitude, clipping a tree, ending submerged upside down in a dam.

5 out of the 7 people on board were killed in the crash, including the pilot. Amanda will tell of her miraculous survival and how although she had multiple fractures including spinal (C2), 2nd degree burns and other serious injuries, she somehow walked hundreds of metres trying to seek help.

Amanda had a great personal faith in God which gave her the strength to come through this and the difficulties and challenges she faced during recovery. Amanda became a Christian about 7 yrs ago. She has a twin sister, Bibe. Amanda is on the Pastoral team at The Dream Centre Christian Church on the Gold Coast.

Amanda's testimony will glorify God and encourage you through any hard times that you might be facing in your life.
